### Technical Data

DESCRIPTION [UNIT]	VALUE/VALUE RANGE
Protection class IP	IP 20
VS version	connection module
VS system	VS Compact
Number of pairs	10
Grid size	20 mm

With insulation displacement contacts (IDC), in compliance with IEC 60352-4. Suitable for wire diameters of 0.35 - 0.80 mm, for stranded wires of 7x 0.15 (AWG 26-24), contacts allow double wiring. The integral wire cutter ensures smooth wiring and cutting of wires. Plug connection for prints is provided at the back. Overvoltage protection for permanent personal and equipment protection can be plugged in at the front. Also features front contacts for testing and measuring.

#### Features

- Material module body: PC, fiberglass-reinforced, halogen-free
- Contact material: spring bronze, gold-plated contact surface
- Grid size: 20 mm
